FOR THE

CONNOISSEUR

—AND THE BEGINNER

ALSO

Dutch Iris, Tulips and Hyacinths

1953

WALTZ BROTHERS
GROWERS OF CHOICE DAFFODILS

Route No. 3

Box 197-A

SALEM, VIRGINIA

TERMS, EXPLANATIONS, Etc. (Please read carefully)

* * * * *

We are offering a wonderfully fine selection of magnificent new Daffodils, and the best of the older ones, from leading and long-established growers in Oregon, Holland, and the British Isles, as well as those of our own growing (however, we are digging very few of our bulbs this year). Also much improved varieties of Dutch Iris, from Oregon, and a select list of Tulips and Hyacinths, from one of the oldest and most reliable of Holland firms. All are finest quality top-size bulbs. (A superbly illustrated folder showing 20 or so varieties of the marvelous new Jan de Graaff Hybrid Lilies in color, will be ready in June. Write for your copy, if interested.)

* * * * *

PLEASE Place Your Order E A R L Y : It is impossible for us to maintain sufficient stocks of all the varieties we offer to fill extensive orders received at planting time, in the fall; so we send out our List as early as possible in the Spring, and ask you to place your order now, so that we may order the desired varieties especially for you. (This applies especially to the recent Irish introductions, many of which we can supply at the originator's price,—if your order is received in time.) A 5% cash discount will be allowed on all orders of \$5.00 or more, received not later than June 1st,—*except* on orders which are part of a Garden Club order, the discount for which has been allowed the Garden Club sending the order.

* * * * *

G A R D E N C L U B S : generous discounts in cash and extra bulbs allowed on Garden Club orders of \$50 or more, if received not later than June 1st. Orders for Tulips, Dutch Iris and Hyacinths may be included to make a larger amount, and thus a larger discount.

* * * * *

PRICES: The Daffodils are priced per bulb; 12 for the price of 10, with 6 and 3 at this same dozen rate (6 for the price of 5, and 3 for two and one-half times the single bulb price); 50 or more bulbs at the 100 rate,—70 times the single bulb price. No further cash discount is allowed,—to Garden Clubs, or others,—on that part of the order on which the 100 rate is used, as this 100 rate is a 16% discount from the dozen rate, and 30% from the single bulb price. This also applies to the Tulips, Hyacinths, and Dutch Iris, which are priced per dozen, with 100 for 7 times this dozen price.

DELIVERY will be made at planting time, in September or October. All bulbs offered in this List will be sent prepaid, usually by P. Post, up to and including the 4th zone (600 miles).

PAYMENT: Cash with order preferred (you may have a 5% cash discount in this case, on orders of \$5.00 or more, received before June 1st); otherwise, 25% of amount with the order, and the balance September 1st. Other terms, in some instances, by arrangement.

Please Keep A Copy Of Your Order.

Royal Horticultural Society of London

CLASSIFICATION OF DAFFODILS

Division 1. TRUMPET Narcissi, — trumpets as long or longer than the perianth segments (petals); one flower to the stem. Examples — King Alfred, Mrs. E. H. Krelage

- (a) perianth colored (varying shades of yellow), trumpet colored, not paler than the perianth.
- (b) perianth white; trumpet colored (usually yellow).
- (c) perianth *and* trumpet white.
- (d) any other color combination (such as the trumpet being a lighter shade than the perianth).

Division 2. LARGE-CUPPED Narcissi (formerly Incomparabilis and large crowned Leedsii), — crown more than 1/3 to nearly the length of the petals. Examples — Carlton, Dick Wellband.

- (a), (b), (c), (d) as in Div. 1, except that the colored crown in (a) may be yellow, orange, or red, and in (b) wholly, or in part, yellow, orange, red, pink, buff, apricot, etc., etc.

Division 3. SMALL-CUPPED Narcissi (formerly Barrii and small-crowned Leedsii), — cup less than 1/3 the length of the petals; one flower to the stem. Examples — Carolina, Edward Buxton. (a), (b), (c) as in Div. 2.

Division 4. Double Narcissi.

Division 5. TRIANDRUS Narcissi (usually 3, — sometimes 2 to 4,— white, creamy white or pale yellow flowers per stem. Examples— Thalia, Silver Chimes.

- (a) cup *not* less than 2/3 the length of the petals.
- (b) cup less than 2/3 the length of the petals.

Division 6. CYCLAMINEUS Narcissi, — usually rather small flowers, with reflexed petals. Example — February Gold.

- (a) and (b) as in Div. 5.

Division 7. JONQUILLA Narcissi, — true Jonquils, and their Hybrids, 3 to 6 golden yellow fragrant flowers per stem, and 1 to 3 flowers per stem, for the Hybrids, and they may, or may not be sweet-scented. Examples — Jonquilla Simplex, Trevithian, Golden Goblet.

- (a) and (b) as in Divs. 5 and 6.

Division 8. TAZETTA Narcissi, — mostly Poetaz Hybrids, 2 to 6 or 8 more or less fragrant florets per stem. Example—Geranium.

Division 9. POETICUS Narcissi, — the Poet's Narcissi, snow-white petals and red-rimmed cups. Example — Actaea.

Division 10. Species and Wild forms.

Division 11. Miscellaneous Narcissi, — those not falling in any other group.

BLUE RIBBON WINNERS

If you would like to win a lot of Blue Ribbons at your Daffodil Show next Spring, — and who wouldn't, — here is a list of a number of varieties in each Division, which should do that for you. Most of them have received R. H. S. Awards of Merit (A. M.) and/or First Class Certificates (F. C. C.) in the (not too distant) past,— many very recently, — and have been consistent winners in Shows here and in England the past few years. By purchasing first quality bulbs of these varieties, planting them in good well drained soil, and providing some protection from wind and storm (by planting on the leeward side of a garden fence or hedge, or the use of burlap wind-breaks; mulching with peat-moss etc. to prevent their being splashed by heavy rains, etc.) they should bring home for you more than your share of the Ribbons. If this protection cannot be provided, the flowers should be cut as soon as they are fully developed, or even before, with long stemmed varieties, — and kept in a cool dark place until the Show.

In each Class we list first the lower priced varieties, mostly those priced at not much over \$1.00, then after a space (- -) the rare new ones, (- - -) and finally the new introductions of the Oregon Bulb Farms (these latter have not been shown in competition, but they compare very favorably with the other new ones).

Prices will be found on the following pages.

- 1a Cromarty, Garron, Kandahar, Leinster, Principal, Rembrandt, Royalist, Virginia Wright - - - Grapefruit, Goldcourt, Kingscourt, Golden Marvel, Moonstruck, Milanion. - - Halloween
- 1b Ballyferis, Bonython, Effective, Halfa, Queen of the Bi-Colors, Rathkenny - - - Bonington, Content, Oklahoma, Patria, Preamble, Spitzbergen, Trouseau, Trostan - - - Chula, Magic Pink, Temptress, Western Star.

CHOICE DAFFODILS

In the following list, the number and letter preceding the variety name denotes the type, or the form of the flower of that variety, — see "Classification of Daffodils", on page 3, if you do not know the classes.

Varieties marked with an asterisk (*) are especially recommended for cutting and landscaping. They are strong-growing, free-flowering, and priced so they may be used in quantity.

The names of the originators of most of the more recent introductions, and some older ones, are given in parentheses following the variety name. (Back) is Mrs. R. O. Backhouse; (Brodie) Brodie, of Brodie Castle; (Mitsch) Grant Mitsch, of Canby, Oregon; (Rich.) J. Lionel Richardson, of Waterford, Ireland; (Will.) P. D. Williams, of Cornwall, England; (G. L. Wil.) Guy L. Wilson, of Broughshane, N. Ireland.

The capital letters following the name designate the approximate relative blooming season, — E—early, EM—early midseason, M—Mid-season, LM—late midseason, L—late.

2a	ABELARD (LM)	Primrose, with orange banded crown.....	\$.15
9	*ACTAEA (LM)	one of the best Poet's.....	.18

1b ZEST (Mitsch)	white, with pale yellow trumpet	1.00

MORE FINE D A F F O D I L S

-the recent Jan de Graaff introductions

These new Daffodils represent the result of many years of painstaking work, on the part of Mr. de Graaff and his helpers, and are a worthy contribution to the Daffodil world. While as yet comparatively unknown, they compare very favorably with the other fine varieties, and will, we predict, win a place for themselves among the favorite Daffodils in a very few years.

3b ATOM FLASH (L)	white, with cherry red cup	\$ 8.25
2b AZALEA (LM)	white, with flaring pink crown	5.25

ROYAL HORTICULTURAL SOCIETY

CLASSIFIED LIST of DAFFODIL NAMES

We have a number of copies of the latest edition on hand; price—\$1.00 per copy, (\$1.15 postpaid).

L I L I E S

—by Jan de Graaff

We here wish to call your attention to the wonderful new Jan de Graaff Lilies, which we can supply this autumn; these Lilies cannot be purchased directly from Mr. de Graaff (Oregon Bulb Farms), but only through seedsmen and bulb growers. We will not have the actual flowers to show, as we do with the Daffodils, but will have an illustrated circular with wonderfully fine pictures of twenty or so varieties,—in color, of course. This circular should be ready to send out in late June,—we hope. The bulbs offered in this circular are grown in Oregon, under Mr. de Graaff's expert supervision; those needed for our orders will be carefully packed there, and sent to us for distribution.

These gorgeous Lilies have been featured in most of the leading garden magazines, and others, including the Saturday Evening Post; a scene in one of Mr. de Graaff's Lily fields was shown in color on the front cover of "Popular Gardening", for July 1952, and four varieties of his introduction grace the August "Flower Grower" cover.

These remarkable new Lilies,—the Aurelian, Bellingham, Fiesta, Golden Chalice, Green Mountain, Mid-Century and Olympic Hybrids, and their varieties,—to name only a portion of them,—are one of the most outstanding contributions to present day gardening, and they bring to our gardens color, form, size and adaptability undreamed of a few years ago. Most of them require no special care, except that they be planted in friable, well drained soil, and have good ventilation; most will do well in most sections of our country, and with very few exceptions, they prefer sunlight to shade. Nothing, in our opinion, can excel clumps of three to five or more bulbs of Lilies as focal points, in the flower garden or perennial border. And, by a careful selection of varieties, these truly "Super" Lilies may be enjoyed all through the summer, from June through most of October.

We are sure that many of you have already had your interest in these exquisite Lilies awakened, and we hope that the above mentioned circular will be eagerly awaited, and the placing of an order planned. We will accept orders up to the 20th of September, but we may be unable to furnish some of the desired varieties at that late date, so in order to avoid disappointment, we advise placing your order as soon as possible, after receiving the circular. (Please write us for your copy, if you are interested in these wonderful new Lilies).
